Battery recycling buckets are located in the following places on campus:

- E-Quad A134 (outside of loading dock)
- Moffett R033 (outside of loading dock)
- Icahn M06 storage (outside of loading dock)
- Frick (outside of stockroom)
- MacMillan (1st floor receiving; hallway outside of B22)

If you do not work near one of these collection sites, you can request a battery pickup by emailing us at EHS@princeton.edu or calling 609-258-1545.

**The Following Batteries May be Recycled**

- Lithium
- Nickel/Cadmium (Ni-Cad)
- Nickel/Metal Hydride (Ni-MH)
- Lithium-Ion
- Mercury and Silver Oxide

*Lead-Acid batteries* are recycled in large blue drums collected by Interstate Battery. Contact EHS for locations.

**NO ALKALINE BATTERIES**

Non-rechargeable alkaline batteries are NOT recycled by Princeton. Such batteries are not classified as hazardous waste and the recovery process uses more energy than would be saved by re-use. These batteries can be disposed of in the regular trash.

If the battery recycling bucket is full, email ehs@princeton.edu or fill out a Hazardous Waste Pick-Up Request Form: ehs.princeton.edu/waste-pick-request
