Follow these steps to keep yourself and others healthy

**Wash hands frequently**
Use soap and water and lather for 20 seconds. Wash your hands before and after eating, blown your nose, coughed, sneezed and after you have used the restroom.

**Keep your phone in your pocket or bag**
Do not place cell phones or other personal devices on shared surfaces. Sanitize your phone daily.

**Avoid touching your face and face covering**
Avoid touching your eyes, nose, or mouth, where germs are transferred. Wash hands immediately after removing your mask.

Help maintain a healthy campus
