

Spotlight on Safety

Health and Safety News For The Princeton Community • Special Edition

Safe + Sound Edition

SAFE +  
SOUND
Week August 12-18, 2019

CELEBRATE YOUR SAFETY SUCCESSES

Safe + Sound Week 2019 is almost here! For the second year in a row, we are highlighting the value of workplace safety at Princeton University with special programs and promotions. Be sure to follow EHS on Twitter, Facebook and Instagram to learn more.

Take For Safety

This year we are encouraging staff to "Take 10 For Safety." It can take as little as 10 minutes to find and fix workplace hazards, making a big difference to your health and safety at work.

View or download our **helpful checklist** to do a quick evaluation of your work space, equipment and safety practices.

Ten minutes can make all the difference!

You've Been Caught... Working Safely!

Look for EHS representatives around campus next week (Aug. 12-16) as we hand out "You've Been Caught" cards to employees demonstrating good workplace safety practices. If you're "caught," you can choose a fun prize from the EHS Store!

What is Safe + Sound Week?

Safe + Sound Week is an initiative of the Occupational Safety and Health Administration (OSHA). The nationwide event raises awareness and understanding of the value of safety and health programs in the workplace. The focus of the week is on three core principles.

Find and Fix Hazards

At the core of every effective safety and health program is a systematic process for identifying and controlling (i.e., finding and fixing) workplace hazards.

Management Leadership

Management leadership means there is a commitment from

the top to implementing a program and using it to drive continuous improvement in safety and health.

Worker Participation

Effective safety and health programs tap into workers' collective experience, knowledge, and insight in order to find solutions to workplace safety and health challenges.
