Resumption of Operations

General Note

The purpose of this document is to provide graphics that will support the *Princeton Playbook: Phased Resumption of On Campus Summer Operations*. The wording and images are place holders for initial review and will be updated with the development of the Playbook.

Once the workplace signage has been established by the Signage Committee, the final applicable signs should be included in these graphics, relating the actual physical environment to the Playbook document.
General Principles
Resumption of Operations
General Principles

Use the density, geometry and division strategies to allow for social distancing in the workplace.

Social Distancing
Create a minimum of 8 feet distancing between workstations / seating to ensure 6 feet social distancing is maintained.¹,²

Maximum Occupancy
For occupancy guidance, look for posted signs.

Furniture Moves
Before moving or removing furniture or fixtures or adding additional barriers, submit a project request through Office of Capital Projects (refer to details on next page).

1. Distancing to be verified by EHS.
2. Reference Playbook for distance requirements by space.
Resumption of Operations
Project Request Process

A department requires an approved Resumption of Operations Plan prior to submitting a project request. The project request can be submitted through the Office of Capital Projects - [https://ifacilities.princeton.edu/CAPRequest/](https://ifacilities.princeton.edu/CAPRequest/) and should note the request as COVID-related.

### Process Flow

1. **Individual and/or Unit Identifies a Need.**
   - Submits Request to Department Head for Approval.
   - Project Request Meets Department Approval.

2. **Department Submits Request via OCP Project Request Link**
   - Project requests are reviewed by COVID-19 Project Committee.
   - Project requirements are reviewed to insure that the request cannot be accommodated without having to make modifications to the workplace.
   - If a modification needs to be made, Committee develops modification option(s) that meet University guidelines.

3. **Project Request has been Approved by Committee.**
   - Project is assigned to appropriate Project Manager in Facilities Operations or Office of Capital Projects.
   - Project is scoped and a budget is developed. Reviewed with Department Head for concurrence.
   - Project Manager submits project for funding approval.
Work Environment Types
Resumption of Operations

Work Environment Types

Reception / Close Interaction

Physical barriers such as plexiglass should only be considered when 6 feet of distance cannot be maintained or for situations where there is a frequent interaction with patrons or the public.

Open Workplace Environments

- Provide remote work options.
- No desk sharing.
- Alternate shifts or A/B team schedules.
- Staff should sit directly across from one another.

Enclosed Spaces

Reduce occupancy without furniture changes while maintaining recommended occupancy and distancing.

Chair not useable
Resumption of Operations
Reception / Close Interaction

Office of Capital Projects will evaluate each project request to determine solutions based on existing furniture conditions.

Sit-on or clamp-on plexiglass barrier options promote flexibility.

Partitions or overhead can be added to an existing system, if available.
Open Workplace Environments: Workstations

Add signage on desktops or seating when stations should not be used.

Please do not sit here.

Day 1 User  Day 2 User
Resumption of Operations
Open Workplace Environments: Collaborative Areas

Existing

Short-term
Chairs removed in shared collaborative areas.

Signage
